

Coming for the first time to Taiwan, I did not really know what to expect. I certainly did not expect it to be such a formative time. I have collected countless impressions which will accompany me for many years to come and make me chuckle every time I think of them. I want to thank the IMBA staff and all my friends for making this semester a wonderful experience.

Moving from Austria to Taiwan is a big challenge, but with the support of the IMBA staff and nice buddies it was a challenge that can be accomplished. I want to point out that everybody that I met was very friendly and helpful. The university is a great place to spend the academic hours and beyond. With many sports facilities, one can spend an amazing time on campus even after classes and get to know nice people.

I would recommend everybody to join the IMBA programme at NKFUST and to learn from these great and new experiences.
